The main content of the page is a large, bold Japanese text: "教育に革命を起こし、世界を巻き込め。". To the right of the text is a portrait of a young man with dark hair, looking slightly to the side with an open mouth as if speaking.

Below the main text, there is a button labeled "Company Details >".

Seller Response - 3 years ago

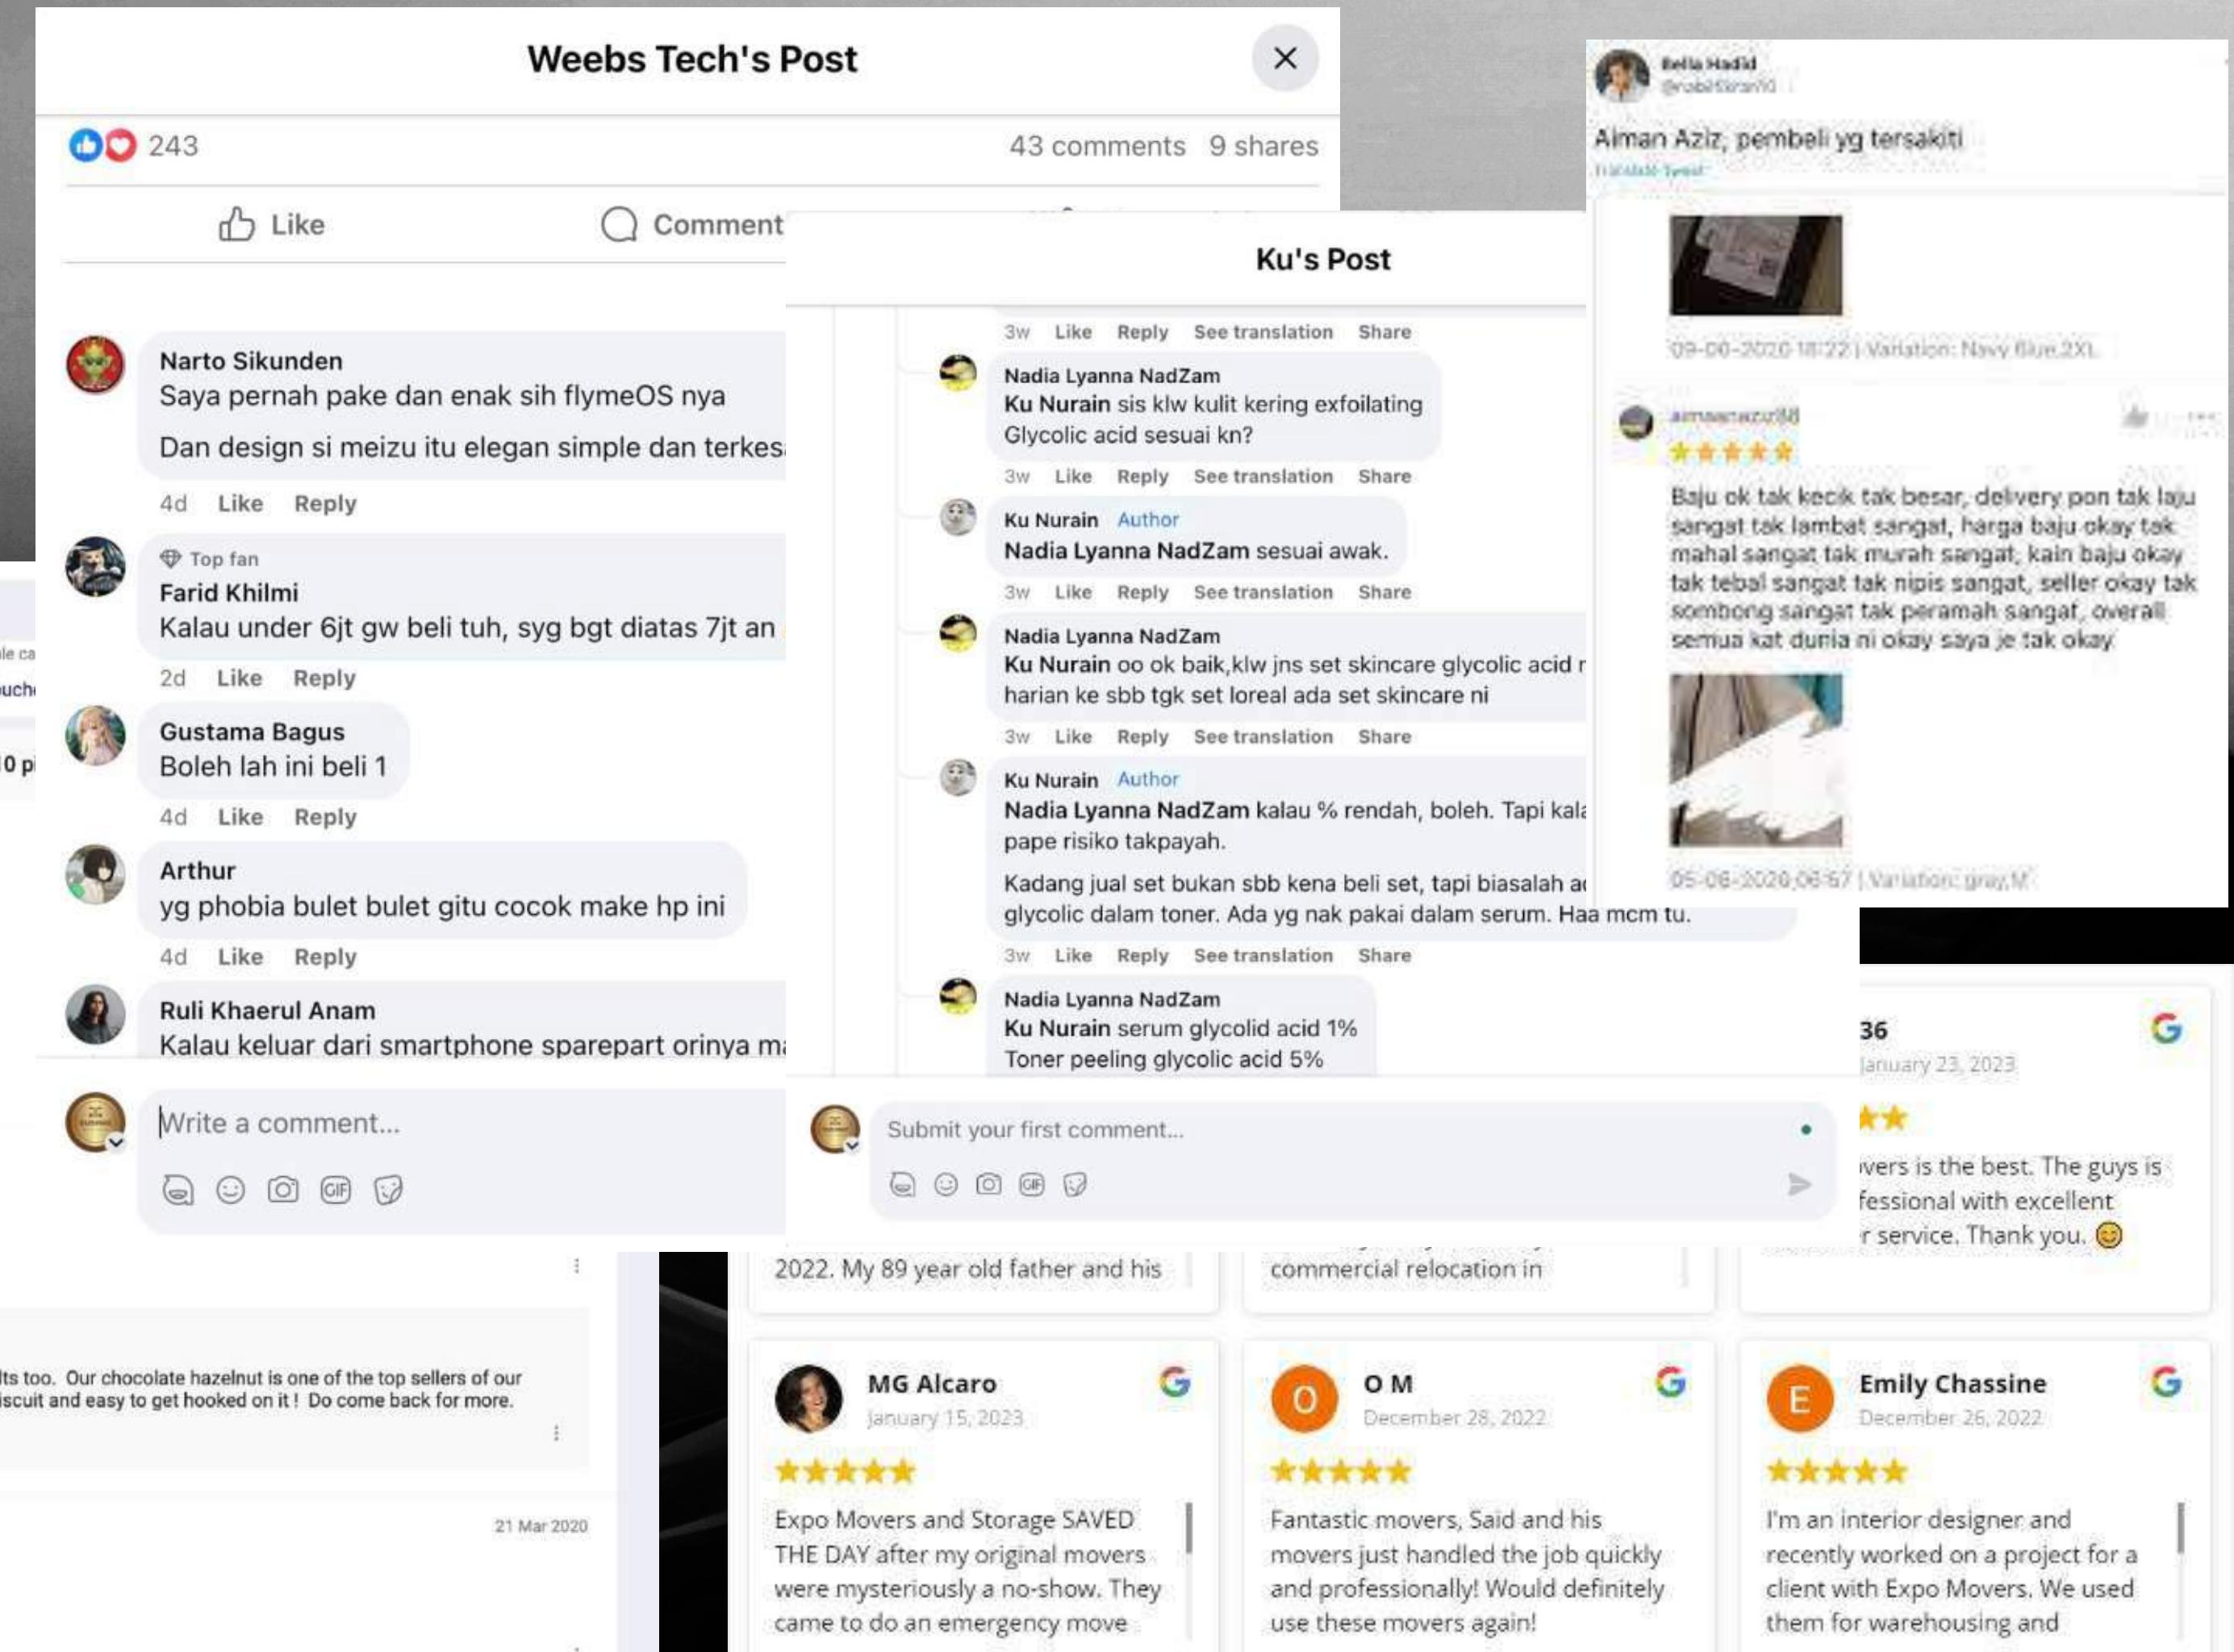

Thank you Ravikiran.. Glad the kids loved it. Yes, kids love chocolates...adults too. Our chocolate hazelnut is one of the top sellers of our cookies range. It has a creamy chocolaty filling around a crispy chocolate biscuit and easy to get hooked on it! Do come back for more.

Project Overview

Theatron aims to create a user friendly app to order an events & shows ticket, especially theater performances. It's primary focus is to provide theater producer & artist to gaining market for their

Problem Statement

From research I observed, it's really challenging to find information & ticketing information in internet about events & shows that will be held in their city. I do have an experience as a theater producer that it's ineffective to use contact person for people to order my tickets.

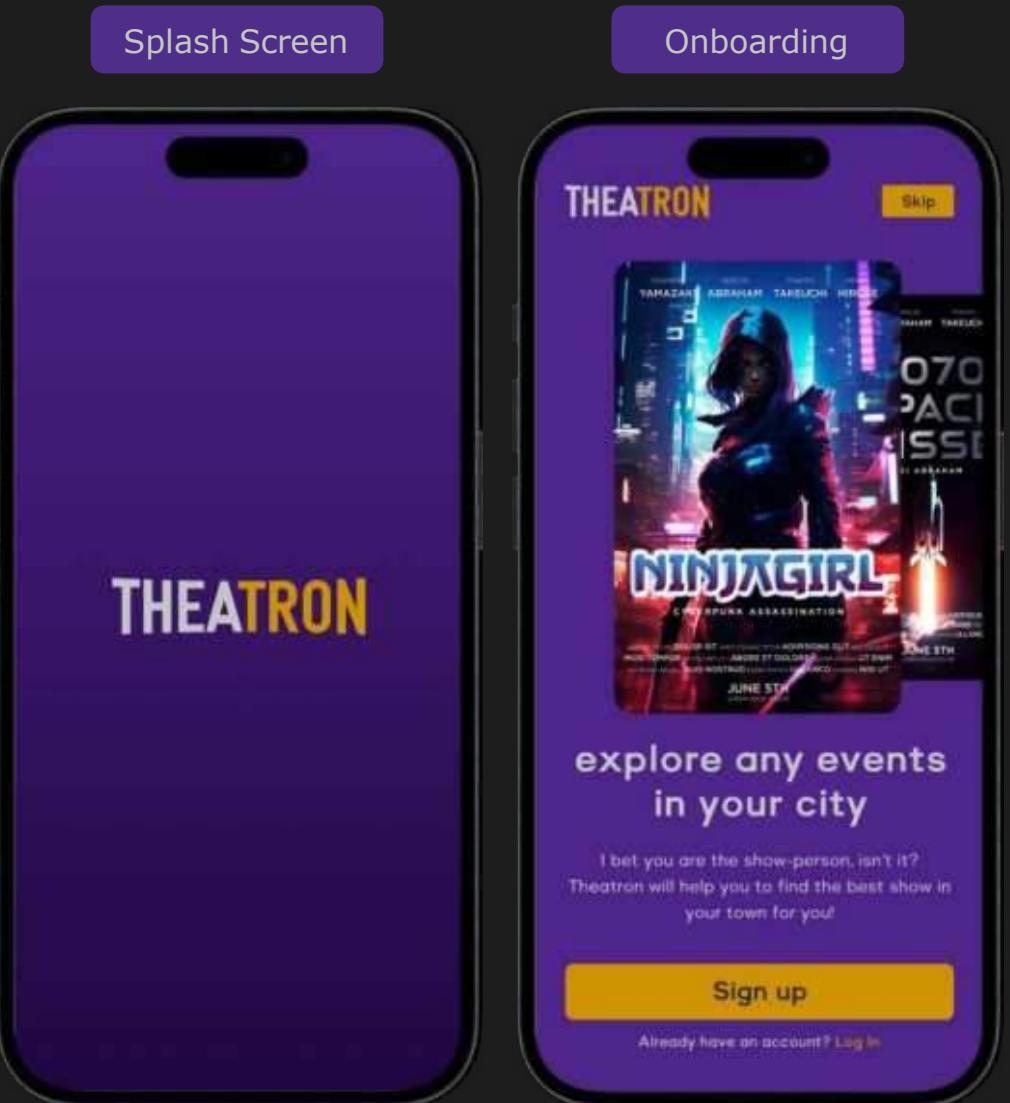

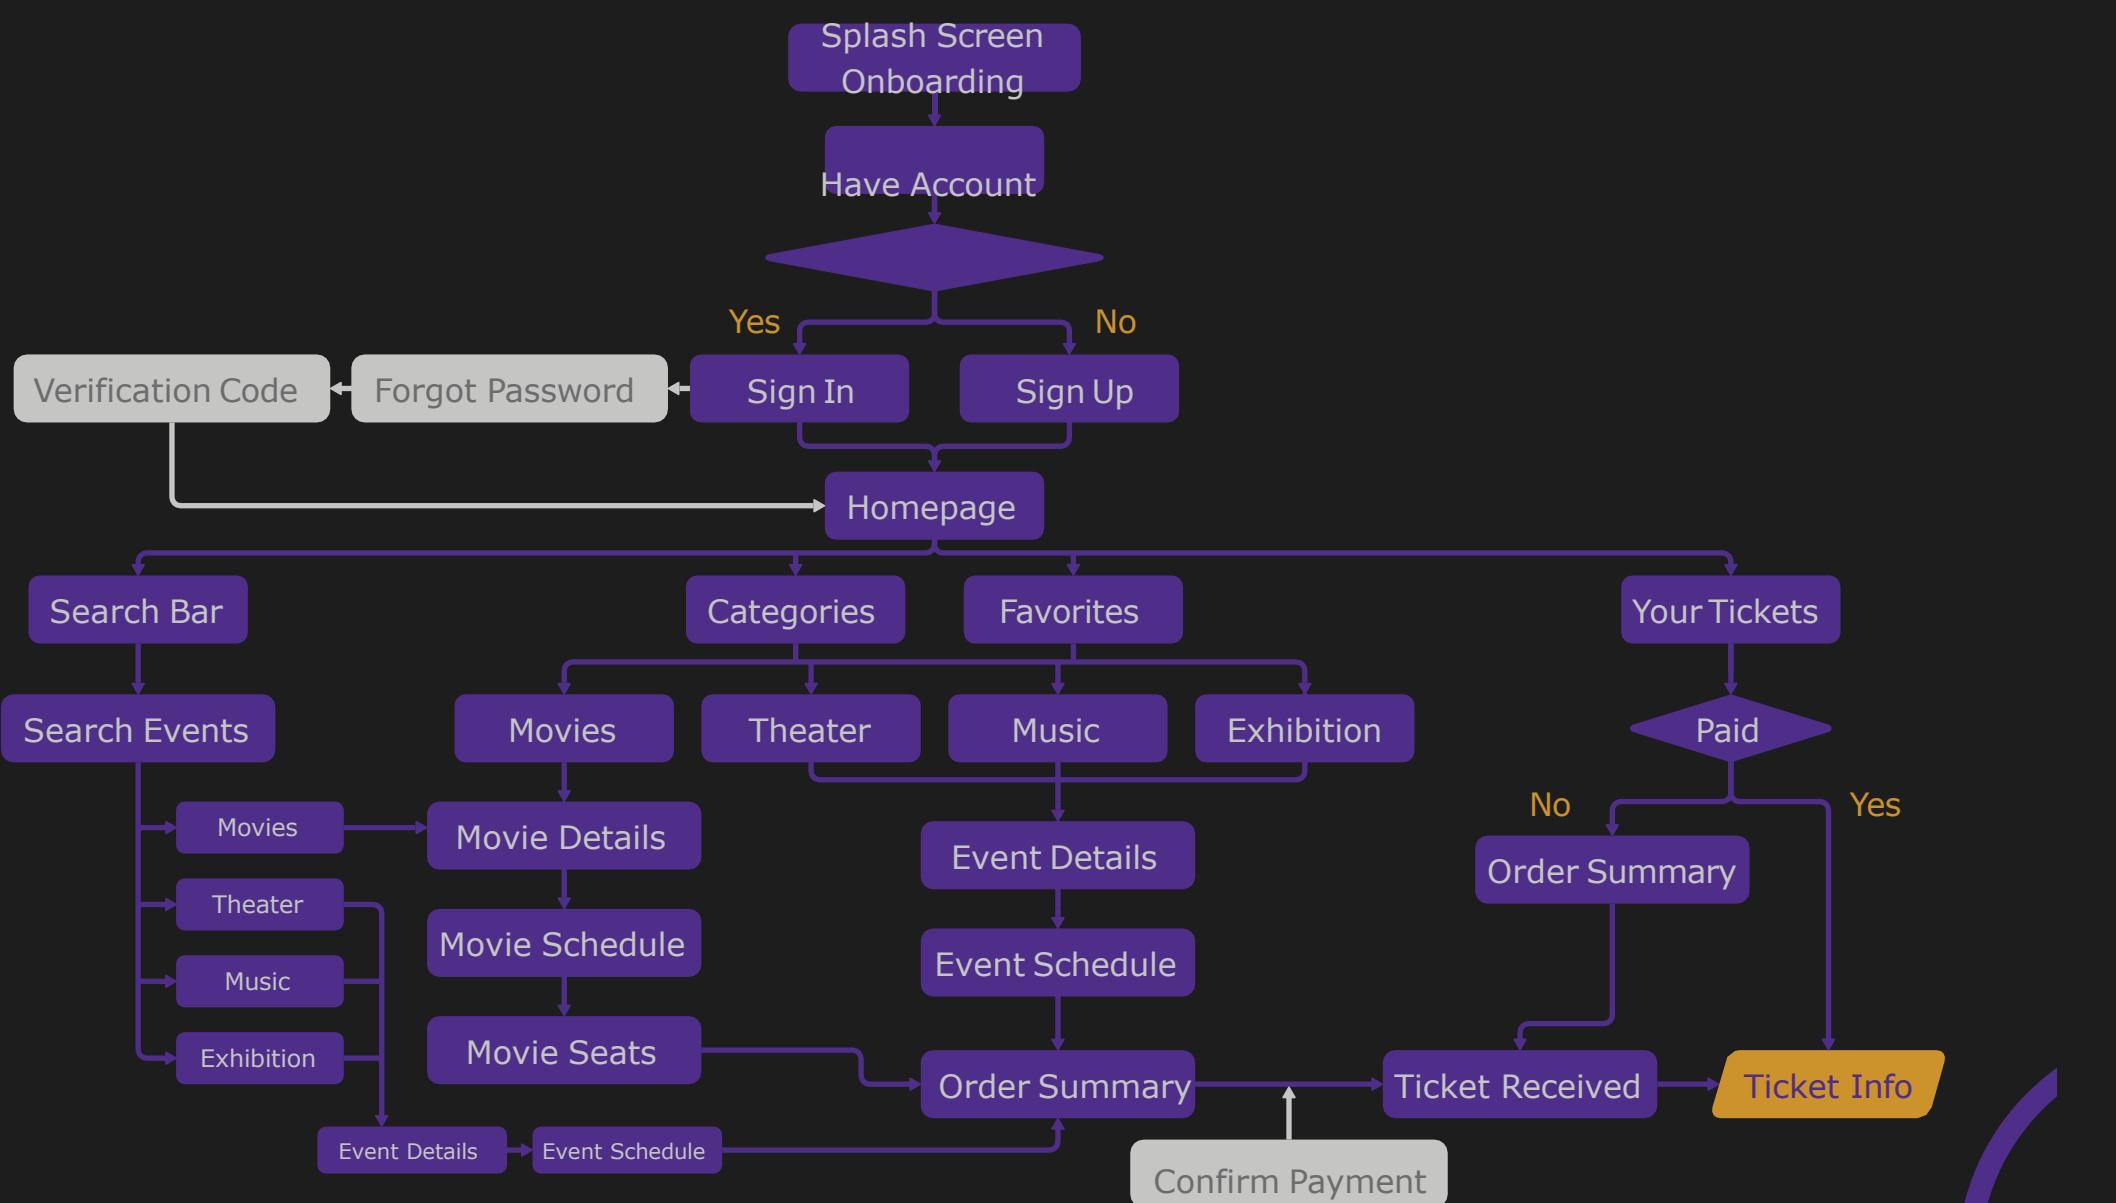

Possible Solution

Theatron will be a medium in between the producers and the audiences. The app will focus on user friendly and seamless service to sell & promoting events and shows. So the producers can be easily sell their events, and the audiences can be easily choose what they want to watch.
